ISSUE DATE: 01-06-2025

RESEARCH ETHICS POLICY

Purpose

To ensure all research activities conducted, supervised, or reviewed by ZIBU Health Institute comply with international ethical standards.

Policy

ZIBU Health Institute shall:

- Protect the rights, dignity, and safety of research participants.
- Ensure informed consent processes are followed.
- Prevent plagiarism, fabrication, and falsification.
- Promote responsible authorship practices.
- Ensure confidentiality and data protection.
- Conduct ethical review through IRB/ERC mechanisms.

Ethical Standards

Research activities shall comply with:

- Declaration of Helsinki
- Good Clinical Practice (GCP)
- International Committee of Medical Journal Editors (ICMJE)
- Institutional ethical guidelines

Research Misconduct

The following are prohibited:

- Plagiarism
- Data fabrication
- Data falsification
- Duplicate publication
- Unauthorized authorship

Violations may result in disciplinary action.
